## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this

Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Sakai et al (U.S. 6,253,133).

Sakai et al discloses a side airbag system comprising: a side airbag unit, which deploys an airbag in a sideward direction with respect to an occupant sitting on a vehicle seat (SE); a posture detector (ATs), which determines a posture of the occupant; a weight detector (SWse), which measures a weight of the occupant; and a deployment controller (11), which controls the deployment of the airbag (21) based on the posture and weight of said occupant; wherein the deployment controller (11) allows the deployment of said airbag irrespective of the posture of the occupant, when the weight measured by the weight detector (SWse) exceeds a threshold value.

### ***Allowable Subject Matter***

3. Claims 3-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
